

To Whom It May Concern

Date: 22/5/2019.

Team CGS has done a wonderful job making our website www.trginc.in more popular in search engines and getting more traffic. I would also like to say how excellent your customer support has been. Any and all concerns I had, were addressed diligently by Ms. Yogita and team. We have noticed increased ranking in some search engines after the project began. I am excited about what the future brings through the dedicated and talented work by CGS Infotech.

Thank you all and Keep up the good work!!
