Chennai, India

Sub: Letter of Appreciation

I am delighted to work with CGS, especially Yogita, Arti, and the team. They are patient and good listeners. They were able to understand my requirement and act accordingly. It was really a seamless sail through for me to get my work done.

They are responsive and approachable on all days, in fact, I had disturbed Yogita on weekends as well, but she was very understanding and approachable. I am more than happy to give few other projects soon.

I am also working on a new web site creation and SESO for the same project soon.
Thanks again for all their work.
